

Four factories. One testing engine.

How we make ads for every brand from here on, on one page.

TOO LONG, DIDN'T READ

- 1 Ads come from four places**
AI Studio, Ambassadors, Templates, and our Designer and production team.
- 2 Every ad is a test**
One brief asks one question. The ads are numbered so we can read the answer.
- 3 Triple Whale picks the winners**
Winners get more budget and become next week's briefs.

Every week, for every brand

Brief

Monday, in Asana

Make

Tuesday, in a
factory

Launch

Wednesday, in
Meta

Judge

Triple Whale

Repeat

Winners feed next
week

Why: winners are rare. The brands that win test more good ideas, on a steady rhythm. This makes that rhythm the default.

Pick the factory that fits the idea

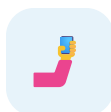

AI Studio

Use it when you want **lots of statics fast**: many headlines, many angles.

Who: Strategist

Where: Locus, Studio

Cost: ~35¢ an ad

Ambassadors

Use it when **a real person needs to say it**: UGC, reviews, real-life use.

Who: Strategist sets angles

Where: creator link (TRYBE)

Lucky: Lucky creator app

Templates

Use it when **a layout already won**. Refill it with a new angle or product.

Who: Strategist

Where: Locus, Studio

Source: last month's winners

Designer and production

Use it when **it has to be perfect or it's a video**: hero work, launches, B-roll edits.

Who: Designer, video editor

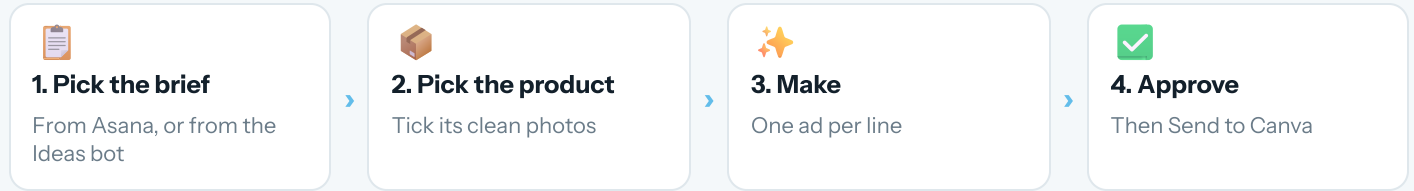

Where: Asana brief

Speed: 2 to 3 days

Shortcut: drop inspo in Slack and tag the Ideas bot. It writes the brief for whichever factory fits (see the Ideas bot guide).

AI Studio in four clicks

The AI makes the whole static ad, words included. You act as the creative director.

EXAMPLE

Batch 412 • testing headlines

4 ads • about \$1.40

Ad ID	Headline	CTA	Score
412-1	Your line. Every time.	Shop now	9/10
412-2	Stop three-putting.	Shop now	8/10
412-3	Milled. Not cast.	See why	6/10 Redo
412-4	The gift that fixes their short game.	Gift it	9/10

The score

Every ad gets a 0 to 10 check on the product. **Under 7, press Redo.**

Statics only

Videos go to Ambassadors or the editor.

Same tools we already use, in one loop

- | | | |
|---|-----------------|---|
| 1 | SLACK · ATRIA | Find the idea
Spot inspo, tag the Ideas bot. |
| 2 | ASANA | Write the brief
Creative Brief column. Angle, why, what we're testing, numbered ads. |
| 3 | LOCUS · TRYBE | Make the ads
Studio for AI, the creator link for ambassadors, Asana for the designer. |
| 4 | CANVA | Polish
Final touches. Links post back on the Asana task. |
| 5 | META | Launch
Into the testing campaign, named by batch (412-3). |
| 6 | TRIPLE WHALE | Judge
Sales and CPA per ad. Scorecards post to Asana. |
| 7 | LOCUS BRAND TAB | Learn
Winners become next week's briefs and templates. |

Still done by people, on purpose: writing briefs, launching in Meta, and the Winner / Loser call.

What we aim for

NEW ADS PER BRAND, PER WEEK

Testing budget $\div (3 \times \text{target CPA})$

Example: \$4K testing budget, \$40 target CPA = **about 33 ads a week**.

$\leq$ target

CPA

The main call, from Triple Whale

30%+

Hook rate

Videos. 40%+ is great

1%+

Link CTR

1.5%+ is strong

1 in 10

Win rate

Tested ads that become winners

Mon

Judge + brief

Call last week's tests.
Write this week's briefs.

Tue

Make

Studio batches.
Designer starts.

Wed

Launch

Polish, then live in the
testing campaign.

Thu

Check

Every new ad spending
and named.

Fri

Pulse

Kill clear losers only.

These are starting targets. Each brand's own test rules in the Brand tab win.
